Docket No.: 245402008400

Restriction to one of the following inventions has been required under 35 USC § 121:

I. Claims 1-4, 7-16, 18 and 19, drawn to a light-emitting device.

II. Claims 20-22, drawn to the structure of invention I in combination with additional lead frames, with particularly claimed physical orientation with respect to each other, and additional light-emitting devices, with at least two distinctly colored light-emitting devices.

Applicant also reserves the right to amend the application to include a generic claim or other linking claim or claims as prosecution proceeds. The provisional election of the claims of Group I is not to be construed as dedication of the unelected subject matter to the public. Applicant reserves the right to file continuing and divisional applications for this subject matter.

In the unlikely event that the transmittal form is separated from this document and the Patent Office determines that an extension and/or other relief is required, Applicant petitions for any required relief including extensions of time and authorize the Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to **Deposit Account No. 03-1952** referencing **245402008400**. However, the Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.
